Hyperbaric Oxygen Therapy

WHAT IS MILD HYPERBARIC OXYGEN THERAPY

Our mild Hyperbaric Oxygen Therapy (HBOT) safely increases the body's oxygen uptake by raising the barometric pressure. Hyperbaric chambers are simply enclosures, which can be pressurized to allow the person inside to experience atmospheric pressures greater than normal environmental pressures. Hyperbaria is based on Henry's law of physics, which states that more gas is dissolved in a liquid by increasing the pressure of the gas.

Under normal circumstances, only the red blood cells carry oxygen. Since HBOT forces oxygen into the body fluids, under pressure, oxygen dissolves into all of the body's fluids, including the plasma, the lymph, the synovial (joint) fluid and the cerebrospinal fluid surrounding the brain and spinal cord. These fluids can carry the extra oxygen even to areas where circulation is poor (or blocked), either by trickling past blockages or by seeping into the affected area.

Oxygen feeds the body, supports the immune system, destroys toxic substances, and promotes new cell growth. Oxygen is our primary source of energy, and is the fuel required by the body for the proper operation of all major systems. OXYGEN IS ESSENTIAL. Usually we get all the oxygen we need from breathing atmospheric air. mHBOT is a form of oxygen therapy intended to make more oxygen available to the body.

mHBOT Has Been Shown To Be Effective For The Following

Acne	Disc Herniation
ADD/ADHD	Dizziness
AIDS/HIV	Fatigue
Allergies	Fibromyalgia
Altitude Sickness	Frequent Flying/Jet Lag
Alzheimer's	Headaches
Asthma	Hypoxia
Autism	Hypertension
Autoimmune Disease	Lyme disease
Autonomic Neuropathy	Memory Loss
Bacteria Infections	Multiple Sclerosis
Body Detoxification	Muscle/Tendon Pain(sprains/strains)
Boost Immune Function	Neuropathy Related to Diabetes
Brain Injury	Non-Healing Wounds
Cancer	Parkinson's disease
Candidiasis	Premature Aging
Cerebral Palsy	Rheumatoid Arthritis
Chemical Sensitivity	Sleep Disorders
Chronic Fatigue Syndrome	Smoking
Circulation	Stress/Anxiety
Diabetic Complications	Stroke
Digestive Disorders	Surgical Recovery
	Viral Infections

Prices for 60 minute therapy
\$75/ single treatment
\$700/ 10 treatments
\$1300/ 20 treatments
